

Locker Systems

Genus

Changing area &
washroom systems

The Genus® locker range is designed to suit the demands of high-traffic changing areas providing highly secure lockers with its unique Keepsafe® locking system.

All the Genus® Locker range is manufactured from polyethylene, a highly robust polymer which provides outstanding benefits compared to wood, steel or laminate alternatives.

Benefits:

- Unique Keepsafe® locking system providing outstanding security
- Will not corrode, rot or delaminate
- Graffiti & chewing gum can be easily removed
- Will withstand pressure washer cleaning
- High-impact strength - will not dent like sheet steel
- Corrosion free hinges and locks
- Virtually unbreakable panels and doors, very strong and durable
- Colour matching service available
- Guaranteed for five years*

Product Features:

- Appropriate for wet and dry areas
- Made from solid polyethylene
- Quick & Easy assembly to save installers time with polyethylene "Spring Clips".
- Available in One, Two, Three and Four compartment styles
- Recessed door handle for easy locker door opening
- Lockers are numbered according to customer requirement
- Large locker identity numbers to aid the partially sighted
- Available with key & cam lock, locker hasp, £1 coin return lock & keys or £1 coin retain lock & keys
- Special designs manufactured by request

Vandalism and security are increasing changing room maintenance costs and causing emotional distress to users.

To combat this highly important issue the Genus® Locker range includes the unique Keepsafe® locking system.

This is a full length "keep" which ensures the complete length of the door is securely locked, with little possibility of levering the locker door open to obtain personal possessions.

Colour Matching Service

To ensure the design of the changing area is to the customer's requirements, we can also offer a colour matching service to samples provided by the customer. This ensures lockers correspond with established changing areas or allows specifiers to create a unique look to changing facilities. Please call the Customer Helpline for details.

Sheet Range

Sheet Material
